

DECLARATION OF CONFORMITY

**of the hygienic suitability of products in contact with drinking water
according to the German Drinking Water Ordinance § 17 paragraph 3**

**ULMAN Dichtungstechnik GmbH
Mr. Eckhard Lück
Max-Planck-Straße 32
71116 Gärtringen**

The manufacturer shall bear sole responsibility for drawing up this declaration of conformity.

We hereby declare that the following plants, devices, equipment, components and/or components (hereinafter referred to as “products”) in their present form and/or properties comply with the general requirements of § 17 paragraph 2 in compliance with the requirements of § 17 paragraph 1 of the Drinking Water Ordinance.

Furthermore, we declare that the products meet the requirements laid down by the Federal Environment Agency

- the assessment basis for metallic materials in contact with drinking water, in particular the positive list of metallic materials suitable for drinking water hygiene
and/or
- the assessment basis for plastics and other organic materials in contact with drinking water and their installations
and/or
- the guideline on the hygienic assessment of elastomers in contact with drinking water

which were valid on the date of issue of this declaration as amended. This declaration was preceded by tests of the products according to the European standards listed below by an accredited body whose conditions and results have been documented in test reports. The test reports may be presented at any time upon request. This declaration is valid until revoked.

Applied Norms:

EN 1420: 2016-05 Influence of organic materials on water for human consumption – Determination of odour and taste of water in piping systems

EN 12 873-1: 2014-09 Influence of materials on drinking water – Influence due to migration – Part 1: Testing methods for factory-produced products made from or with organic or glass-like materials

EN 12 873-2: 2005-04 Influence of materials on drinking water – Influence due to migration – Part 2: Test methods for on-site applied non-metallic and non-cemented materials

EN ISO 7027: 2016-11 Water quality – Determination of turbidity – Part 1: Quantitative methods

EN ISO 7887: 2012-04 Water quality – Investigation and determination of colouration

DIN EN 1484: 1997-08 Water analysis – Instructions for the determination of total organic carbon (TOC) and dissolved organic carbon (DOC)

DIN EN 16 421: 2015-05 Influence of materials on water for human consumption – multiplication of microorganisms

The declaration covers the following products:

Article No.	Name
Various	O-rings and drawing parts out of material E8121 (EPDM 80 perox.)

Details of the signatory to this declaration:

First name and surname, position: Mr. Eckhard Lück, Head of integr. management systems
Company name (if different):

This declaration is valid until: 21.05.2024
